**Columbia Match 2009**  
**Sandpoint, ID**

Called to order 12:00 April 4<sup>th</sup>, 2009

Minutes and Treasure report read and approved.

Old Business

Combo match will be scheduled and held at Coeur d'Alene (CDA). The club petitioned to keep the match; they also have their rifle Smallbore teams shooting again. Need to get the email addresses of the Pistol and Rifle team member of CDA so a personal invitation can be sent out, to try to increase their attendance on the Combo match. Caleb Gutting is in charge of this.

The increase in team entry fee to \$20 (as discussed in the Combo match) for the IERPA looks to be correct as the Treasury is down to approx. \$500.

Photo's of the trophies has been accomplished along with all winners of the trophies. The last of the photos are being sent to Vic Alvarez. The web site, IERPA.org has updated with ½ the photos thus far.

Trophies for G and H

New Business

Pistol groups are to be limited to 9 teams per group. This will call for the adding of the "H" and possibly the "I" groups. The division will be divided as in the past. If there are more teams than make an equal division the break will be accomplished to try to equal to the level of scores versus just putting the overages on the end groups. i.e. if there are 74 teams then each group will have 8 teams, if the 9<sup>th</sup> team is far closer to the score of the A than to the B, then this team will be added to the A group versus being placed in the B. The Match Director will make this judgment call. Motion by Sandy Daniel, 2<sup>nd</sup> Kathy Konek, Passed.

We had a request for the IERPA patch; however there are none in the Treasures' supplies. Caleb is going to check on the cost of getting these made up. It was also proposed that if the cost is low enough then one will be sent out to each of the shooters for the 2010 entry fee (no further increase of fee beyond \$20 anticipated) and the remaining priced to sell.

Information only: CDA is looking into doing an ID State Outdoor Smallbore Championship, could be both Rifle and Pistol. Caleb to keep us posted.

We will be looking into how to lower the cost of individual awards. Considerations: 1. Checking on the cost of metals without ribbons. 2. Checking on different awards for individuals instead of the metals.
